

Cover Letter

Dear Hiring Manager,

I am writing to express my strong interest in the **Senior Product Designer** position at your esteemed company. With almost 6 years of professional experience in user interface and user experience design, I bring a deep passion for crafting intuitive, user-centered digital products that are both functional and delightful.

Currently, I am working as a **UX Consultant for Acme AI**, where I provide strategic design support for AI-powered platforms(3 Projects). Prior to this, I served as a **Senior Product Designer at mPower Social Enterprises Ltd.**, leading impactful projects such as **Ace Exams, Diabetes Self-Management, Creado, TBDNS, CNHA, and VexEPI.**

My journey has also taken me through key design leadership roles at **Solution Spin Ltd., Medina Tech Ltd., and OrangeBD**, each contributing to the depth and diversity of my design expertise.

My foundation in UI/UX design began while pursuing a **BSc in Computer Science and Engineering at Southeast University**, where I started working part-time in design two years before graduation. Since then, I've built a solid track record across projects (Orangebd) that span government, education, health, and e-commerce—including **Sisimpur, MyGov, LGD Sheba, Paura Sheba, and Muktopath.**

At **Medina Tech**, I integrated Agile and Scrum methodologies into the design process, working on platforms like **Dr. Chashi, Easifi, Class Connect, and Safety Champs.** At **Solution Spin**, I contributed to high-impact projects such as **SelfTest, Teletalk All Jobs, D-Garma, Lafarge Holcim E-auction, Kulfido, and Viosin Limo**, demonstrating my ability to collaborate across multidisciplinary teams.

I am confident that my diverse background, collaborative mindset, and user-first design approach make me a strong fit for your team. I am excited about the opportunity to bring value to your products and create experiences that users love.

You can view my portfolio at raahimsaber.github.io/rasa. I would welcome the opportunity to further discuss how I can contribute to your team.

Thank you for considering my application.

Warm regards,

Rahim Saber
